## Erratum

# Erratum to “Measurable temperatures in nonequilibrium radiative systems” [Physica A 248 (1998) 97–110]<sup>1</sup>

J. Fort\*, D. Jou, J.E. Llebot

Estimations and figures were computed for  $\kappa = 0.1 \text{ m}^{-1}$ . Therefore, the value  $\kappa = 10 \text{ m}^{-1}$  should be replaced by  $\kappa = 0.1 \text{ m}^{-1}$  in the captions to Figs. 2 and 3, as well as in pages 103, 105 and 107. With this correction, neither the results nor the conclusions in the paper are modified.
